this specific guide since among the compromises has become ready. Taking her silence for assent, Tom continued: "Your father is gone from here, gone forever, but he still lives in other worlds. This isn't a statement of faith alone. If Albert Einstein were still alive and standing here, he'd tell you that it's true. Your father is with you in many places, and so is Phimie. In many places, she didn't die in childbirth. In some worlds, she was never raped, her life never blighted. But there's an irony in that, isn't there? Because in those worlds, Angel doesn't exist-yet Angel is a miracle and a blessing." He looked up from the city to the woman. "So when you're lying in bed tonight, kept awake by grief, don't think just about what you've lost with your father and Phimie. Think about what you have in this world that you've never known in some others-Angel. Whether God's a Catholic, a Baptist, a Jew, a Muslim, or a quantum mechanic, He gives us compensation for our pain, compensation right here in this world, not just in those parallel to it and not just in some afterlife. Always compensation for the pain ... if we recognize it when we see it." His severed toe lay across the room, on the white tile floor. It stuck up stiffly, nail gleaming, as if the floor were snow and the toe were the only exposed extremity of a body buried in a drift..-though this Tom now has a rhinoceros-smacked face, this other Tom, in his own world, has an ordinary face. Poor him, so ordinary.".He might suspect, but he couldn't know. He would but would be left with at least a shred of doubt about Junior's.Jacob made more fire sounds as he stripped the clear cellophane off a second new deck of playing cards, then off a third and a fourth..Even above the piston-knock of her heart and the bellows-wheeze of her breath, Celestina heard wood crack, a small pane of glass explode, and metal torque with a squeal. The creep was going to get away..This trick, however, was far more difficult than walking where the rain wasn't. Sustaining vision took both a mental and physical toll from him..The cheerful tides of friends and neighbors, over the years, had washed away nearly all the stains that the dark rage of Agnes's father had impressed on these rooms. She hoped her brothers might eventually see that hatred and anger are only scars upon a beach, while love is the rolling surf that ceaselessly smooths the sand.. "The doctors," he continued, "needed to repair damage to the left frontal sinus, the sphenoidal sinus, and the sinus cavernous, which had all been partially crushed by that pewter candlestick. Frontal, malar, ethmoid, maxillary, sphenoid, and palatine bones had to be rebuilt to properly contain my right eye, because it sort of ... well, it dangled. That was just for starters, and there was considerable essential dental work, as well. I elected not to have any cosmetic surgery." ".I was never Cary Grant, to begin with," said Vanadium, still ceaselessly rolling the quarter across his fingers, "so I had no big emotional investment in my appearance. Cosmetic surgery would have added another year of recuperation time, probably much longer, and I was anxious to get after Cain. Seemed to me this mug of mine might be just the thing to scare him into an incriminating mistake, even a confession." His Country Squire laden with cookies, plum cakes, homemade caramel corn with almonds, and gifts, Edom drove directly home from Obadiah Sepharad's place, which had been their final stop. He roared away as if trying to outrun tornadoes and tidal waves..She was four years older than Phimie. They hadn't i;mn a great deal of each other during the past three years, since Celestina had come to San Francisco. Although distance and time, the press of her studies, and the busyness of daily life had not made her forget that she loved Phimie, she had forgotten the purity and the power of love. Rediscovering it now, she was shaken so badly that she had to pull a chair to the side of the bed and sit down.. "Oh, dear God," she whispered, and although she had always been a strong woman who stood on a rock of faith, who drew hope as well as air with every breath, she was as weak now as the unborn child in her womb, sick with fear..Recuperating, he had plenty of time to practice meditation. He became so proficient at focusing on the imaginary bowling pin that he could make himself oblivious of all else. A stridently ringing phone wouldn't penetrate his trance. Even Bob Chicane, Junior's instructor, who knew all the tricks, could not make his voice heard when Junior was at one with the pin..As always, curious about how others lived-or, in this case, bad lived-Junior explored the house, poking in drawers and closets. For a widower, Bartholomew Prosser was neat and well-organized..The hardest was being in this room at the very moment when Phimie had moved on. Celestina knew beyond doubt that this was the worst thing she would have to endure in all her life, worse than her own death when it came..Onto its roof now, the Pontiac spun as it slid, grinding loudly against the blacktop, and regardless of how determinedly Agnes held on, she was being pulled out of her seat, toward the inverted ceiling and also backward. Her forehead knocked hard into the thin overhead padding, and her back wrenched against the headrest.. "I'll do your share of the housework for a month. If I'm closer to the date, you clean up all my pie-baking and other kitchen messes for a month-the bowls and pans and mixers, everything." Commodified fantasy takes no risks: it invents nothing, but imitates and trivializes. It proceeds by depriving the old stories of their intellectual and ethical complexity, turning their action to violence, their actors to dolls, and their truth- telling to sentimental platitude. Heroes brandish their swords, lasers, wands, as mechanically as combine harvesters, reaping profits. Profoundly disturbing moral choices are sanitized, made cute, made safe. The passionately conceived ideas of the great story-tellers are copied, stereotyped, reduced to toys, molded in bright-colored plastic, advertised, sold, broken, junked, replaceable, interchangeable..Eventually, Junior remembered the quarter. He reached into the right pocket of the thin cotton bathrobe, but the coin wasn't there, as it should have been. The left pocket also was empty..Deciduous black oaks lined the street. All were leafless at this time of year, gnarled limbs clawing at the moon..In his car, currently a Mercedes, he made three trips between his apartment and the garage in which he'd stored the Ford van under the Pinchbeck name. He took precautions against being followed.. "Tame him or bury him," said Losen, and turned to more important matters..Junior was flattered, he really was. Women couldn't get enough of him. The story of his life. They never let go gracefully. He was wanted, needed, adored, worshiped. Women kept calling after they should have taken the hint and gone away, insisted on sending him notes and gifts even after he told them it was over. Junior wasn't surprised that women would return from the dead for him, nor was he surprised that women he'd killed would try to find a route back to him from Beyond, without malice, without vengeance in their hearts, merely yearning to be with him again, to hold him and to fulfill his needs. As gratified as he was by this tribute to his desirability, he simply didn't have any romantic feelings left for Naomi and Seraphim. They were the past, and he loathed the past, and if they wouldn't let him alone, he would never be able to live in the future..Oregon State Police might find at least one reason to be suspicious of the tragic scenario that he was creating. He didn't know much about the technology that police might employ at a crime scene, and he knew even less about forensic pathology. He was just doing the best job he could.. "Forget Barty's tree for a second and imagine that all these many worlds are like stacked slices of Swiss cheese. Through some holes, you can see only the next slice. Through others, you see through two or three or five slices before holes stop overlapping. There are little holes between stacked worlds, too, but they're constantly shifting, changing, second by second. And I can't see them, really, but I have an uncanny feel for them. Watch closely." Nolly, Kathleen, and Sparky had prepared him for Industrial Woman, but when the flashlight beam flared off her fork-and-fan-blade face, Vanadium twitched in

fright. Without fully realizing what he was doing, he crossed himself..Always, he was good with Barty, and on this occasion, he teased more than the usual number of smiles and giggles from the boy as he tried to get him to read the Snellen chart on the wall. Then he lowered the lights in the examination room to study his eyes with an ophthalmometer and an ophthalmoscope..Every mother also believes that her baby is smarter than other babies. Sadly, time and the child's choices in life usually require her to adjust her opinion as she never will in the matter of physical beauty..Her lifelong optimism, her buoyancy, which she had miraculously sustained through so many difficult years, would never survive this. She would no longer be a rock of hope for him and Edom. Their future was despair, undiluted and unrelenting..Given a child-size harmonica, he extemporized simplified versions of songs he heard on the radio. The Beatles' "All You Need Is Love." The Box Tops' "The Letter." Stevie Wonder's "I Was Made to Love Her." After hearing a tune once, Barty could play a recognizable rendition..For half an hour he studied Barty's eyes with various devices and instruments. Thereafter, he arranged an immediate appointment with an oncologist, as Joshua Nunn had predicted..Although he found Magusson's face sufficiently disturbing that he avoided looking at it more than necessary, and though Magusson's bulging eyes were so moist with bitterness and with need that they inspired nightmares, Junior shifted his gaze from his half-numb hands to his attorney. "Luck? I lost my wife. And my unborn baby."..Both angry and mortified, yet still fearful, a walking multimedia collage of emotions, Junior left the gallery..Paul said, "I wanted you ... I don't know ... I just wanted you to see her. I wanted to say ... to say. . ."..He squirmed deep under the covers, clamped a plump pillow over his head to muffle the singing, and chanted, "Find the father, kill the son," until at last he fell exhausted into sleep..At the elevators, the orderly suggested that Edom and Jacob take a second cab and meet them on the surgical floor..In the kitchen, Barty sat at the table, and Paul's heart pinched at the sight of the boy in padded eyepatches..Perhaps a lot of suspects were rattled and ultimately unnerved by this behavior. Junior wouldn't be easily trapped. He was smart..Worse, the vengeful and vicious bitch-or bastard, whatever-evidently had made up vile stories about him, which on a slow evening she'd shared with Neddy, with the bartender, with anyone who would listen. The staff of the lounge believed Junior was a dangerous sadist, No doubt she had concocted other lurid stories, as well, charging him with everything from a degenerate interest in bodily wastes to the selfmutilation of his genitalia..Halos and rainbows loomed in her memory, ominous as they had never been before..Great hobnailed wheels of pain turned through Agnes, driving her into darkness for a moment..Piano music drifted into the restaurant from the adjacent bar, so soft and yet sprightly that it made the clink of silverware seem like music, too..Besides, he couldn't any longer afford to spend endless hours either learning a new language or attending the opera. His life was too full, leaving him insufficient time for the Bartholomew search..Most likely, Reverend White's ramblings were as greasy with sentiment and oily with irrational optimism as were his daughter's paintings, so Junior was in no hurry to learn the name of the radio program or to write for a transcript of the sermon.. "Science. Quantum mechanics. Which is a theory ... of physics. But by theory, I don't mean just wild speculation. Quantum mechanics works. It underlies the invention of television. Before the end of this century, perhaps even by the '80s, quantum-based technology will give us powerful and cheap computers in our homes, computers as small as briefcases, as small as a wallet, a wristwatch, that can do more and far faster data processing than any of the giant lumbering computers we know today. Computers as tiny as a postage stamp. We'll have wireless telephones you can carry anywhere. Eventually, it will be possible to construct single-molecule computers of enormous power, and then technology-in fact, all human society-will change almost beyond comprehension, and for the better."..Perri was often fast asleep by nine-thirty, seldom later than ten o'clock while Paul never turned in earlier than midnight or one in the morning. In the later hours, to the reassuring susurrant of his wife's breathing, he returned to his pulp adventures..Twice would indicate a dangerous mania. Three times would be indefensible. But once was healthy experimentation. A learning experience..Prosser-fifty-six, a widower, an accountant-had a thirty-year-old daughter, Zelda, who was an attorney in San Francisco. Junior had driven to Terra Linda previously, to research the accountant; he already knew Prosser had no connection to Seraphim's fateful child..As yet, he hadn't taken either an antiemetic or antihistamine to ward off vomiting and hives, because he wanted to medicate -against those conditions as shortly before the violence as was practical, to ensure maximum protection. He'd intended to dose himself only after he followed Celestina home from the gallery and could be reasonably certain that he had located the lair of Bartholomew.."Will do. Check out those paintings he collects. People pay real money for them, even people who've never been in a looney bin."..Only a small group of mourners gathered for this service. Junior and Naomi had been so intensely involved with each other that, unlike many young married couples, they had made few friends.."That's kind of you," Panglo stammered, "but I have little time for reading, very little time."..In San Francisco, Seraphim Aethionema White lies beyond all hope of resuscitation. So beautiful and only sixteen..No mystery here. No reason to leap to the ceiling and cling upside down like a frightened cartoon cat..she'd crossed herself during Edom's rant about the Tri-State Tornado of 1925. Then, she'd been warding off bad fortune; now, with a smile and a look of wonder, she was acknowledging the grace of God, which, according to the cards, had been settled generously on Bartholomew..Another of Junior's self-improvement projects, since moving to California, was to become a knowledgeable gourmet, also a connoisseur of fine wines. San Francisco was the perfect university for this education, because it offered innumerable world-class restaurants in every imaginable ethnic variety..The morning that it happened, Tom Vanadium rose later than usual, shaved, showered, and then used the telephone in Paul's downstairs study to call Max Bellini in San Francisco and to speak, as well, with authorities in both the Oregon State Police and the Spruce Hills Police Department..They were driven to St. Mary's by Detective Bellini in a police sedan. Tom Vanadium-a friend of her father's whom she had met a few times in Spruce Hills, but whom she didn't know well--literally rode shotgun, tensed to react, wary of the occupants of other vehicles on..Then he looked up at the massive limbs overhead, and the mood changed: A sense of impending insight at once gave way to the fear that an unsuspected fissure in a huge limb might crack through at this precise moment, crushing him under a ton of wood, or that the Big One, striking now, would topple the entire oak..He hadn't heard the cop get out of the chair and cross the dark room. Difficult..He was able to play peekaboo in his fifth month instead of his eighth, stand while holding on to something in his sixth instead of eighth..The full nature of the nightmare continued to elude him, but he became convinced that good reason for his fear existed, that the dream had been more than a dream. He had a nemesis named Bartholomew not merely in dreams, but in the real world, and this Bartholomew had something to do with ... babies..She owned a public-relations firm specializing in artists, and over dinner she rhapsodized about the work of Jack Lientery. His current series of paintings-emaciated babies against backdrops of ripe fruit and other symbols of plenty-had critics swooning.
