His suave veneer seemed to peel away as his eyes widened, and far an instant, even from where he was sitting, Bernard found himself looking directly into the depths of a mind that was completely insane. He shivered involuntarily. Beside him Celia gripped his arm. "General," Sterm ordered. "I'm not sure I can stand much more of this waiting around. Surely it has to be as good as over."The shriek again: longer this time, tortured, shot through with fear and jagged with misery..Micky had finished her second cup of coffee. If the killers track him.foot..Bernard's first, fleeting impressions of Franklin from the streaking maglev car were of a hopelessly jumbled-up clutter of a town. Unlike the neat and orderly models of urban planning that had replaced the heaps of American rubble during the recovery after the Lean Years--with business, entertainment, industrial, and residential sectors segregated by green belts and tidy landsculpting--everything in Franklin seemed to be intermingled with no discernible rhyme or reason. Buildings, towers, houses, and unidentifiable constructions of all shapes, sizes, and colors were packed together, overlapping and fusing in some places while giving way to clumps of greenery and trees in others. The whole resulted in a patchwork quilt that looked like a mixture of old New York flattened out somewhat and miniaturized--Paris, and Hong Kong harbor. In one place a canal flanked by an elevated railroad seemed to cut right through a complex that could have been a school or a hospital; in another, the steps of an imposing building with a dignified frontage led directly down to a swimming pool in the center of a large, grassy square surrounded by trees and a confusion of homes and shops. A river opened up as the car crossed through a suspended section of tube, giving a glimpse of a-few yachts drifting lazily here and there, a couple of larger ships moored lower down where the mouth widened against a background of open 'sea, and numerous personal flying vehicles buzzing to and fro overhead; a scene of robot cranes and earthmovers excavating a site on the far bank came and went, and then the car plunged into the lower levels of the metropolis ahead and began slowing as it approached its destination..also burned from her all illusions. "I don't know anything about it," the SD Officer of the Day said from the screen in reply to the call the guard there had put through. "Those orders are incorrect. Detain those men." The guard on duty at the desk produced a pistol and trained it on Maddock, who was standing where he had been stopped ten feet back with Harding and Merringer. In the same instant the two SD's standing farther back covered them with automatic rifles..Leilani wrinkled her nose, "too precious"..along the hallway to another door that stands ajar.."Better late than never, I suppose," another commented, glancing at the painter, who was still there. The painter nodded but didn't reply.."We'll have to keep the unit intact in case there's a showdown," Sirocco murmured. "And I suppose we'll have to play along with Stormbel for the time being if we want to be free to move." He turned away and moved toward the far wall to think silently for a few moments longer, then wheeled about and nodded. "Okay. Bret, you have to leave for the base right away. Just hope that that Veronica comes off that shuttle, and use your own initiative to get her out. That's all you have to worry about so, on your way." Hanlon nodded and disappeared back through the Orderly Room. "Steve," Sirocco said. "Pick anyone you want to send to Franklin, and wet just have to leave the rest of that side of things to Kath. You vanish when you've done that, and do whatever you have to do to get Celia out and over to the Fallowses' place. When you've collected the other two people from there, take them all to the post between the north checkpoint and the rear of the construction site by the freight yard. Maddock's section will be manning that sector from midnight to 0400. They know how to distract the SDs, and I'll make sure they're expecting you." Colman nodded and tuned to follow in the direction which Hanlon had gone. "Oh, and Steve," Sirocco called as a new thought struck him. Colman stopped at the door and looked back.
