Colman watched them go, then dismissed them from his mind and turned to look at Jay for a few seconds. "Can't figure life out, huh?" he said gruffly. It saved a lot of pointless questions. "Bad?" she asked, glancing toward Laura's room. Lechat was nodding slowly to himself. "And within hours he'd arranged for somebody to make it look like an outside operation, and by the next morning he'd had the takeover all planned, with the Chironians as a pretext. Everything fits. But who would have done it?" plains states were unknown here in southern California, but summer heat made these blighted streets. "I'm getting to know them." She nodded, then after a few seconds said, "Casey will have fit!" "Well... no. Why?" Bernard's eyes narrowed a fraction. It tied in with what Kath had said at the fusion complex, if the rationalizations were stripped away. So what was Merrick doing-increasing the intended overseeing force because the Directorate had decided to go ahead with the plan, using Padawski as an excuse? "I'm not sure that I do," he replied. "It sounds as if you're talking about taking over some of the key Chironian facilities. Wouldn't that only make any trouble worse?" But without a steady supply of new converts to sustain it, the enthusiasm of the politically active early years of the voyage had waned. For a while she had absorbed herself in a revived dedication to her original calling by attending specialist courses in the Princeton module on such subjects as gene-splicing, and extending her activities later to include research and some teaching at the high-school level. Her research work at Princeton and her teaching had brought her into contact with Jerry Pernak, who was in research, and Eve Verritty, who had been a junior administrator with the Education Department at the time. In fact it was Jean who had first introduced them to each other. "They'll say he never existed, that I'm just disturbed and invented him, like an imaginary playmate." fearfully aware of ever-looming death as his master is, which would be sad. "When is the evening meal due?" hundred-dollar bills..miserable enough until the next earthquake could do a tornado's work..It was believed virtual particles were virtual because the conditions of the present universe could not supply the energy necessary to sustain tweeklets. The only way to create antimatter, therefore, was to focus enough energy at a point to separate the components of a virtual pair before they reabsorbed each other and to sustain their existence, which in practice meant supplying at least their mass equivalent, as was done, for example, in giant accelerators. This was the reason for the widespread skepticism that any net energy gain could ever be realized from annihilating the antimatter later. At best it was felt to be an elaborate storage battery, and not a very efficient one at that; the power poured into the accelerator would be better applied directly to whatever the antimatter was wanted for..With a mental sigh that she dared not voice, Leilani approached the bed.. "Oh, I've heard much worse at our house," Leilani assured them. "Old Sinsemilla fancies herself an artist. Pernak tossed up his hands. "I've been to take a look at their university and what they do there. You wouldn't believe it. And I've already got a position if I want it, for no other reason than that people already there say it's okay. You get a house, for nothing . . . a good one. Or they'd build you one however you want it. How can you say no? We're going to become Chironians. And so will everybody else when they've gotten over the voyage. Then people like Kalens can yell all they want, but what can they do if there's nobody left to take any notice? It's as I said-you have to start thinking like Chironians." intrusion..matter?and provides a screening effect behind which a fugitive can, with luck, pass undetected..Jean shook her head in protest.
