He greeted them and asked, "The Doorkeeper will come?" AT THE END OF THE fourth book of Earthsea, Tehanu, the story had arrived at what I felt to be now..And he was easy, he was still, he held fast, rock in rock and earth in earth in the fiery dark of. "There's nobody in the village could change that," she said. She looked up into his face for a moment. "The whole village together couldn't change that!" she said, and laughed. It was all right, then, though the word "change" rang and rang in his head..flung open and the terrible shining figure stood there..the farmlands of the slopes of Mount Onn, nothing ever changes much. There a song worth singing is. Veil, with her gentle voice and smile, was implacable. She told Medra that though she had consented to his remaining on Roke, it was to keep watch on him. "You broke through our defenses once," she said. "All that you say of yourself may be true, and may not. What can you tell me that would make me trust you?..still clear enough under the green grasses of summer..underfed dogs to keep interlopers off his land.. "Oh, it's no good, I know it's no good. Nothing's any good with a drunkard," she said. She wiped her eyes with her apron. "Was that what broke you," she said, "the drink?.. "I'd always counted on your going into the family business," Golden said. His tone was neutral..did not know what to say. How difficult all this was..my side and was smiling as before. It was not merely an external smile of official politeness, a. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..afloat through the winter, the cattlemen will be begging you to stay. Though they may not love. As he walked he thought; he thought hard; he recalled. He recalled all he could of matters his teacher had spoken of once only and long ago. Strange matters, so strange he had never known if they were true wizardry or mere witchery, as they said on Roke. Matters he certainly had never heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would despise him for taking such things seriously, maybe knowing they would not understand them, because they were Gontish matters, truths of Gont. They were not written even in Ard's lore-books, that had come down from the Great Mage Ennas of Perregal. They were all word of mouth. They were home truths.. "Why should I do that?.. Diamond hesitated and said, "No." He looked a question at his father.. "What's up?" said Kurremkarmerruk. "I've been reading about dragons. Not paying attention. But all the boys I had studying at the Tower left."..and looked at me. I stopped in front of him. The smile froze on his half-open mouth. I stood still..them, I have the courage, if you do!". He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee. can't go with her- Can't you go there?" She broke away from Rush, looking again at Tern. "You can
