In spite of this provocation, his stomach felt as solid and secure as a bank vault..A few gasps and exclamations. A sweet giggle and applause from Angel. The reactions were surprisingly mild..Stepping into her digs was like passing through a time machine into another century, traveling in space, as well, to the Europe of Louis XIV. The expansive, high-ceilinged rooms overwhelmed the eye with the rich somber colors and the heavy forms of Baroque art and furniture. Shells, acanthus leaves, volutes, garlands, and scrolls-often gilded decorated the museum-quality antique Bombay chests, chairs, tables, massive mirrors, cabinets, and etageres..Yet, with no recollection of rising from his chair, he found that he had shouldered his backpack and crossed the room. The three men looked up expectantly..Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window..Vanadium hadn't seen the man who had clubbed him from behind and who had smashed his face with a pewter candlestick, but when- he spoke the name Enoch Cain, the quality in his eyes was not compassion. No fingerprints had been left, no evidence in the aftermath of the fire at the Bressler house or in the Studebaker hauled from Quarry Lake..Being blind had few consolations, but Barty found that not being able to look at his uncles' files and books was one of them. In the past, he never really, in his heart, wanted to see those pictures of dead people roasted in theater fires and drowned bodies floating in flooded streets, but a few times he peeked. His mom would have been ashamed of him if she'd discovered his transgression. But the mystery of death had an undeniable creepy allure, and sometimes a good Father Brown detective story simply didn't satisfy his curiosity. He always regretted looking at those photos and reading the grim accounts of disaster, and now blindness spared him that regret..The paramedic snatched the oxygen feed from his patient's nose and quickly elevated his head, providing a purge towel to catch the thin ejecta.."I've always wanted to learn the piano myself," Junior claimed, "but I guess you really have to start young."..A spirit-shredding bleakness clawed at her, but she couldn't permit it to leave her in tatters. If she traded hope for despair, as her brothers had done, Bartholomew would be finished before he'd begun. She owed him optimism, lessons in the joy of life..The calls to Bellini in San Francisco and to others in Oregon were made with a prayer for news, but the prayer went unanswered. Cain had not been seen, heard from, smelled, intuited, or located by the pestering clairvoyants who had attached themselves to the sensational case.."I don't want an attorney." He closed his eyes, lowered his head to the pillow, and sighed. "I just want ... peace."..He placed a phone call to Kaitlin Hackachak, his trollish and avaricious sister-in-law, asking her to dispose of Naomi's things, their furniture, and whatever of his own possessions he chose to leave behind. Although she had been awarded a quarter of a million dollars in the family settlement with the state and county, Kaitlin would be at the house by dawn's first light if she thought she might make ten bucks from liquidating its contents..Nolly shuddered. "The wilds of Oregon. I don't intend ever to go there until it's civilized."..And speak the tongues of man and drake..He had difficulty picturing the detective pattering in the garden on weekends. Unless there were bodies buried under the roses..From San Francisco south to Orange County Airport on a crowded commuter flight, then farther south along the coast by rental car, Paul Damascus brought Grace, Celestina, and Angel to the Lampion house. "Before we go to my place, there's someone I very much want you to meet. She's not expecting us, but I'm sure it'll be okay."..Shortly after six o'clock, Saturday morning, she stirred from a fretful dream and saw Barty sitting up in bed, reading..Agnes wasn't able to interpret his expression, not because he was in the least difficult to read, but because her perceptions were skewed by sudden fear and a flood of adrenaline. Her heart seemed to spin like a flywheel in her breast..HAVING COMPLETED HER English lesson, Maria Elena Gonzalez went home with a plastic shopping bag full of precisely damaged clothes and a smaller, paper bag containing cherry muffins for her two girls..Room by room, closet by closet, Junior conducted a search for the detective. The cop was not here..She couldn't explain her anxiety to him, because he believed in the supremacy of laws, in the justice that might be delivered in this life, in a comparatively simple reality, and he would not comprehend the gloriously, frighteningly, reassuringly, strangely, and deeply complex reality Agnes occasionally perceived-usually peripherally, sometimes intellectually, but often with her heart. This was a world in which effect could come before cause, in which what seemed to be coincidence was, in fact, merely the visible part of a far larger pattern that couldn't be seen whole..He carried the mug to the sink, poured the brew down the drain and saw the cooler standing in the corner.

He hadn't noticed it before. A medium-size, molded-plastic, Styrofoam-lined ice chest, of the type you filled with beer and took on picnics..Most likely, if Victoria was entertaining, the visitor's car would have been parked in the driveway..And somewhere Selma Galloway, their neighbor, was not a spinster but a married woman with grandchildren..Not limited to a survey of the nursing staff on a single floor of the hospital, Junior used the elevators to roam higher and lower. Checking out the skirts.. "No, no, dear. It was little Muffin, from next door. A big dog certainly would have torn up both you and the pants. We've got to have a credible story." "There's a valuable lesson in that," Agnes said. "Others can learn from it if you care to share. But if you want to record your life only up to the card cheating, that's okay, too. Even that far, it's a fascinating journey, a story that shouldn't be lost with you when you pass on. Libraries are packed with biographies of movie stars and politicians' most of them not capable of as much meaningful self-analysis as you'd get from a toad. We don't need to know more about celebrities' lives, Obadiah. What might help us, what might even save us, is knowing more about the lives of real people who've never made it even medium but who know where they came from and why." All he cared about was Red Planet, and what might happen after page 103. He had carried the book with him to the doctor's office, and on the way home in the car; he repeatedly opened it, squinting at the lines of type, trying to read around or through the "twisty" spots. "Jim and Frank and Willis, they're in deep trouble." Consequently, Edom was abroad in the land with pies and parcels, following a list of names and addresses provided by his sister, even though he believed an unprecedentedly violent earthquake, the fabled Big One, was likely to strike before noon, certainly before dinner. This was the last day of the rest of his life..For eight nights thereafter, Agnes padded the floor with folded blankets on both sides of the boy's bed, insurance against a middle-of-the-night fall. On the eighth morning, she discovered that Barty had returned the blankets to the closet from which she'd gotten them. They were not jammed haphazardly on the shelves-the sure evidence of a child's work-but were folded and stacked as neatly as Agnes herself would have stored them.. "It's not a specific brand you can't have, it's the whole idea of a candy bar." "Yes," she admitted, her face still close to his, "I'm afraid. But Dr. Chan is a fine surgeon, and this is a very fine hospital." Ghosts. Sklent was an atheist, and yet he believed in spirits. Here's how that works: Heaven, Hell, and God do not exist, but human beings are as much energy as flesh, and when the flesh gives out, the energy goes on. "We're the most stubborn, selfish, greedy, grubbing, vicious, psychotic, evil species in the universe," Sklent explained, "and some of us just refuse to die, we're too hardass to die. The spirit is a prickly bur of energy that sometimes clings to places and people that were once important to us, so then you get haunted houses, poor bastards still tormented by their dead wives, and crap like that. And sometimes, the bur attaches itself to the embryo in some slut who's just been knocked up, so you get reincarnation. You don't need a god for all this. It's just the way things are. Life and the afterlife are the same place, right here, right now, and we're all just a bunch of filthy, scabby monkeys tumbling through an endless damn series of barrels." "I'm a healer, not a prosecutor. I'm not in the habit of making accusations, especially not against my own patients." The Rolex. Because most of the trash in the huge bin was bagged, finding the watch would be easier than Junior had feared.. "From time to time now, you're going to be written about," Helen warned. "Be prepared for a peevish critic or two, furious about your optimism." On one particular street in Bright Beach, however, the most significant event of the year occurred on a pleasant afternoon in early April, when Barty, now nine years old, climbed to the top of the great oak and perched there in triumph, king of the tree and master of his blindness..A trickster, this detective. Full of taunts and feints and sly stratagems. Psychological-warfare artist..For the first few bites of crab in a light cornmeal crust, Nolly suspended their conversation. Bliss..He nodded. "You do. Yes. But you don't need to know right now. Later, when you're calmer, when you're clearer. It's too important to rush you through it now." you greater strength and determination than any other motive. But you should know this much.... You need to keep her safe for another reason. She's special. I don't want to explain why she's special or how I know that she is, because this isn't the time or place, not with your dad's death and Wally in the hospital and you still shaky from the attack." "You figure all this," Jolene asked, "because Mother Nature gives us a nice warm day in January?" "Well, maybe you're right," Bellini said somewhat acerbically, before departing, "but then you've had the advantage of an illegal search, while I'm hampered by such niceties as warrants." Agnes wanted to reach out and touch him, but she found that she didn't have the strength to raise her arm. She was no longer holding her belly, either. Both hands lay at her sides, palms up, and even the simple act of curling her fingers required surprising effort and concentration..One of the paramedics had stooped beside him to press a cool hand against the nape of his neck. Now this man said urgently, "Kenny!..He was able to play peekaboo in his fifth month instead of his eighth, stand while holding on to something in his sixth instead of eighth..He couldn't remember on what principle he'd considered firing Magusson. In spite of his faults, the attorney was highly competent..Someone named Bartholomew had adopted Seraphim's son and named the boy after himself Junior applied the patience learned through meditation to the task at hand, and instinctively, he soon evolved a motivating mantra that continuously cycled through his mind while he studied the telephone directories: Find the father, kill the son..Therefore, after the nasty shooting, as the Bartholomew hunt continued, so did the good life..At the far end of the table, Agnes shot up from her chair as her son said rain, and as he said wet, she spoke warningly: "Barty!..After an interminable silence, the detective said, "Do you know what believe about life, Enoch?" Then Junior saw the blood on the right cuff of Vanadium's shirt. Blood dripping from his hand, too..When Agnes groaned, one of the shadows spread its wings, moved closer, to the right side of the bed, and resolved into a nurse. Agnes's vision had cleared. The nurse was a pretty young woman with black hair and indigo eyes..Twice would indicate a dangerous mania. Three times would be indefensible. But once was healthy experimentation. A learning experience..Symptoms of food poisoning usually appear within two hours of dining. The hideous intestinal spasms had rocked him at least six hours after he'd eaten. Besides, if the culprit were food poisoning, he would have vomited; but he hadn't felt any urge to spew..Out of respect for his mother, Barty struggled to hold fast to his eyeless second sight, living in the idea of a world where he still had vision, until she had been accorded the honors she deserved and had been laid to rest beside his father.. "Good heavens, Vinnie, I know that," she assured him as she lifted Barty-hardly bigger than a bag of sugar-from the bassinets. She settled with the baby into a rocking chair..daughter's existence. Angel, if that's what she were eventually to be named, lived under a threat as surely as had all the children of Bethlehem, who'd been slain according to the decree of King Herod. The baby curled one small hand around her aunt's index finger. So tiny, fragile, she nonetheless gripped with surprising tenacity..When Renee, sweetly oblivious of her looming doom, claimed to have inherited a sizable industrial-valve fortune, Junior thought she might be inventing the wealth or at least exaggerating to make herself more desirable. But when he accompanied her back to her place, he discovered a level of luxury that proved she wasn't a shop girl with fantasies..A smoldering cigarette, usually dangling aslant from one corner of a hard mouth set in a cynical sneer, was standard issue for tough-guy gumshoes, but Nolly

didn't smoke. His failure to develop this bad habit resulted in a less satisfyingly murky atmosphere than the clients of a private dick might expect. Always, he was good with Barty, and on this occasion, he teased more than the usual number of smiles and giggles from the boy as he tried to get him to read the Snellen chart on the wall. Then he lowered the lights in the examination room to study his eyes with an ophthalmometer and an ophthalmoscope. Junior wasn't interested in Vietnam anymore, and he wasn't in the least troubled by the other news. These two years were disturbing to him only because of Thomas Vanadium. Her special son, walking where the rain wasn't, had made all things seem possible. Twice during dinner, he seemed to draw near The Subject, but then he circled around it and flew off, each time to report some news of little relevance or to recount something funny that Angel had said. Bill wasn't impressed. "They build houses out of mud in China. No wonder everything falls down." Agnes had struggled recently to find a way to explain to Barty that his uncles had lost their hope, to convey also what it meant to live without hope-and somehow to tell the boy all this without burdening him, at such a young age, with the details of what his monstrous grandfather, Agnes's father, had done to her and to her brothers. The task was beyond her abilities. The fact that Barty was a prodigy six times over didn't make his mother's work easier, because in order to understand her, he would require experience and emotional maturity, not just intellect. He remembered the collection of Caesar Zedd self-help drivel that had occupied a place of honor in the wife killer's former home in Spruce Hills. Cain owned a hardcover and a paperback of each of Zedd's works. The more expensive editions had been pristine, as though they were handled only with gloves; but the text in the paperbacks had been heavily underlined, and the corners of numerous pages had been bent to mark favorite passages. In the hall that served the two ground-floor apartments, they encountered Rena Moller, the elderly woman who lived in the unit across from theirs. She was polishing the dark wood of her front door with lemon oil, a sure sign that her son and his family were coming to dinner. On Friday evening, he had arranged for the drawing of the aces, but he had not stacked the subsequent twelve cards to provide for the selection of four identical knaves at three-card intervals. He'd sat in stunned. Kathleen watched him with obvious amusement, aware that he was savoring her suspense as much as he was the appetizer. Reverend White's murder received significant coverage throughout the nation, especially in West Coast papers, because of its perceived racial motivation and because it involved the burning of a parsonage. This wasn't art. This was pandering, mere illustration, more suitable for painting on velvet than on canvas. "Bullpoo might not be what they say, but it's the worst that we say. And in fact, in this house, bulldoody is preferred." This was a test of Junior's gullibility, and he would not give Vanadium the satisfaction of searching his robe for the coin. He'd never taken too much from any one game. He was a discreet thief, charming his victims with amusing patter. Because he was so ingratiating and seemed only mildly lucky, no one begrudged him his winnings. Soon, he was more flush than he'd ever been as a magician. The thorns had not been stripped from the long stem of the white rose. Vanadium clutched it so tightly that the sharp points punctured his meaty palm. He seemed to be unaware of his wounds. Harmless though they were, the sight of them, swaddled and for the most part concealed, first troubled him and then quickly brought him --inexplicably, irrationally, undeniably--to the trembling edge of outright fear. Once satiated, what she desired was a reason to deceive herself into believing that she was not a slut, that she was a victim. She didn't really want to tell anyone what he had done to her. Instead, she was asking him, indirectly but indisputably, to provide her with an excuse to keep their passionate encounter secret, an excuse that would also allow her to continue to pretend that she had not begged for everything he'd done to her. Reading about child prodigies, Agnes learned that most if not all math whizzes also possessed musical talent. To a lesser but still impressive extent, many young geniuses in the music world were also proficient at math. He knew that the only movement in those staring, sightless eyes was the restless reflection of the flashlight beam as he probed the trash with it. He knew he was being irrational, but nevertheless he was reluctant to turn his back on the corpse. Repeatedly in the midst of searching, he snapped his head up, whipping his attention to Neddy, certain that from the corner of his eye, he had seen the dead gaze following him. Why Cain, even if he was the father, should be interested in the little girl was a mystery to Tom Vanadium. This totally self-involved, spookily hollow man held nothing sacred; fatherhood would have no appeal for him, and he certainly wouldn't feel any obligation to the child that had resulted from his assault on Phimie. Eleven days had passed since Wally stopped three bullets. He still had a little residual weakness in his arms, grew tired more easily than before he'd wound up on the wrong end of a pistol, complained of stiffness in his muscles, and used a cane to keep his full weight off his wounded leg. The rest of the medical care he required, as well as physical rehabilitation, could be had in Bright Beach as well as in San Francisco. By March, he should be back to normal, assuming that the definition of normal included massive scars and an internal hollow space where once his spleen had been. With the infant in her arms, the heavysset nurse pressed in beside Celestina, who
